Library Director's Report:

Gila County has launched a new web site to promote tourism covering our entire county. Check it out at

www.discovergilacounty.com

What is cool, organizations can submit upcoming events. In addition, there is some beautiful photography throughout.

Pine Library was the lucky recipient of this quilted heart. The quilted heart was found in our flower container in front of the library. There was a tag attached. It read "I NEED A HOME! If found A Quilted Heart please report me as found at www.IFAQH". I sent this picture along with information on where we are located.

Thank you to the individual who not only made this heart but also wanted to give one to Pine Library.
